

# ZAMBIA MIGRATIONS -KASANKA- KAFUE- LUIWA PLAINS

Tour Date 5 - 20 November 2022

**Tour Cost Adult - R 15 900**  
**Kids < 12 - R 6 250**

This adventure is a combination of the wildebeest migration in **Liuwa Plains** and the migration of the "Flying Foxes" or straw coloured fruit bats in **Kasanka National Park**. One of Africa's greatest wildlife spectacles, if not the world.

We venture into the heart of Zambia and witness one of nature's greatest migration of mammals on earth - 8-10 millions straw coloured fruit bats migrate to Mushitu's swamp forest in northernmost Kasanka. This natural phenomenon takes place every year between October and December.

We visit largest of Zambia's conservation areas, **Kafue National Park**. It offers its visitors an unusual safari experience: excellent big game viewing with barely another vehicle in sight.

The wildebeest migration in **Liuwa Plain National Park** known to be Africa's second largest wildebeest migration. November and December are prime months to visit with stunning skies and flower blooms.
